Subject: Aquila Resources Inc's - Back Forty Project

Hi EPA,

Has the EPA started to review the mine permit application that Aquila Resources Inc filed with the State of Michigan in November, 2015? Aquila calls this proposed mine the "Back Forty Project". It's located near Stephenson, MI.

If so, how do I find online information about the EPA's work status on this proposed sulfide mine?

If not, when does the EPA get involved in this kind of project?

Michigan's Department of Environmental Quality (MDEQ) is reviewing the mine permit application now.

Thanks,
